

Information, results and publications since the last CEN/TC 121/SC 3 on 2003-10-09/10

Information:

- prEN 13479 "Welding consumables – General product standard for filler metals and fluxes for fusion welding of metallic materials"
 - finalized and adopted by the CEN-consultant for formal vote
- prEN 14532-3 "Welding consumables – Test methods and quality requirements – Part 3: Conformity assessment of wire electrodes, wires and rods for welding of aluminium alloys"
 - finalized by WG 3 for formal vote
- the package of final drafts (prEN 13479 and prEN 14532-1, -2, -3) will be sent to CEN/TC 121 for adoption for formal vote on January 2004
- prEN 14640 "Welding consumables – Solid wires and rods for fusion welding of copper and copper alloys – Classification"
 - final draft not yet finished in the ad-hoc-group under the lead of Mr. van Nassau

Publications:

- EN 14295:2003-11 "Welding consumables – Wire and tubular cored electrodes and electrode-flux combinations for submerged arc welding of high strength steels – Classification"
- EN ISO 544:2003-12 "Welding consumables – Technical delivery conditions for welding filler metals – Type of product, dimensions, tolerances and markings"
- EN ISO 14172:2003-12 "Welding consumables – Covered electrodes for manual metal arc welding of nickel and nickel alloys – Classification"

Expected publications:

- EN ISO 18273:2004-03 "Welding consumables – Wire electrodes, wires and rods for welding of aluminium and aluminium alloys – Classification"
- EN ISO 18274:2004-03 "Welding consumables – Wire and strip electrodes, wires and rods for arc welding of nickel and nickel alloys – Classification"
