Why Titanium ?

Benefits

Maintenance-free

Light

Strong

Corrosion-resistance

No surface treatment

Recycle"free"

Disadvantages

Expansive

Difficult too weld automatic

Demand gas protection

Difficult to cut and process

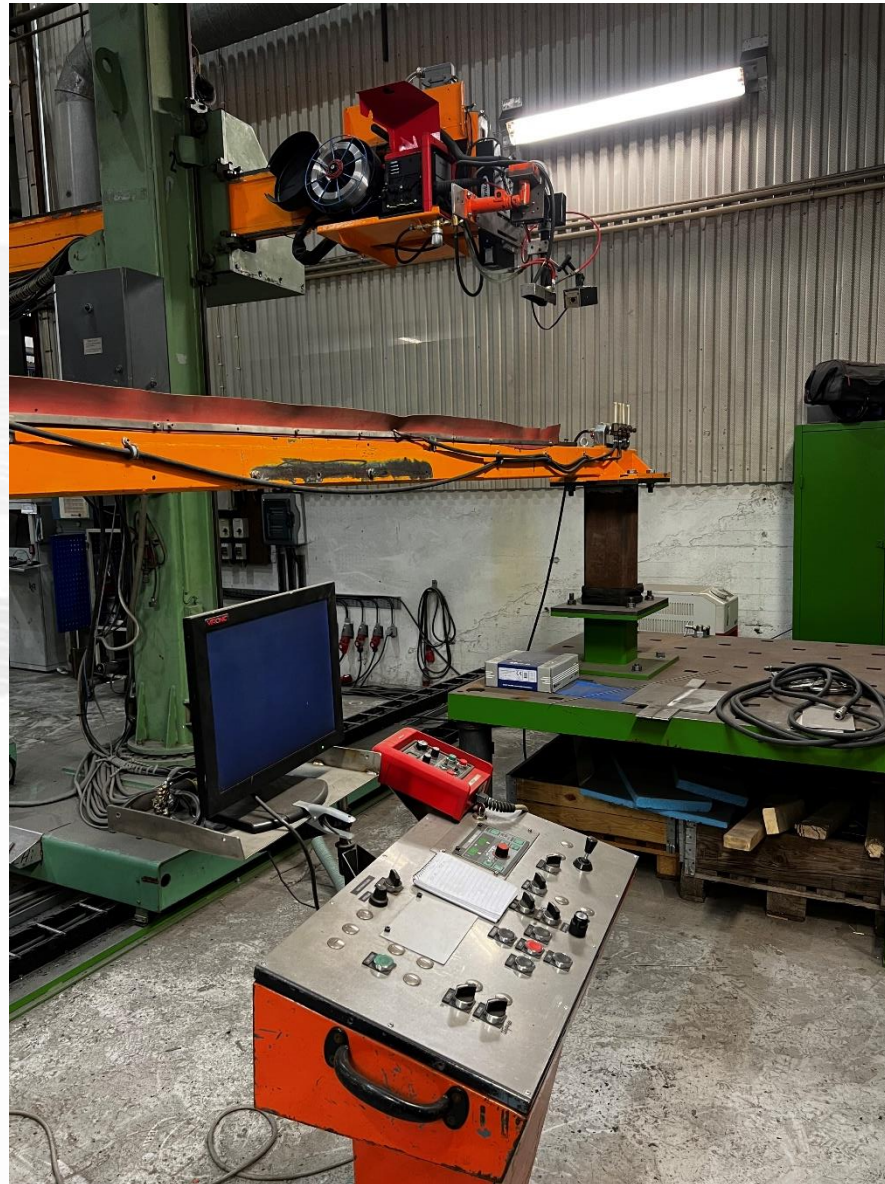

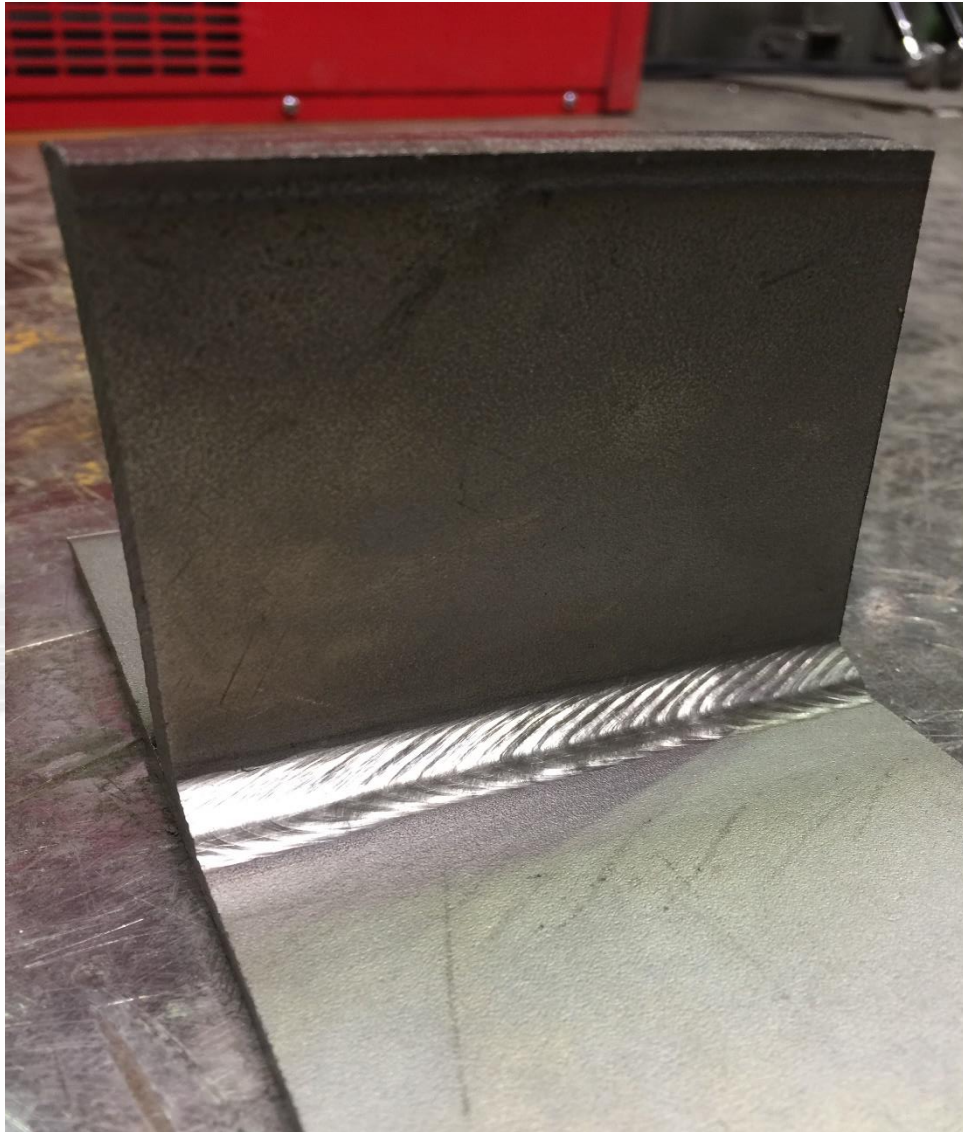

An aerial photograph of a large body of water, likely a lake or wide river, surrounded by lush green forests and some residential areas. A large barge is being pushed or pulled by a tugboat, leaving a white wake behind them. The sky is blue with scattered white clouds.
