C-III-WGB1 Members list

C-III-B-WGB1 Friction stir welding standardization

C-III-B-WGB1 status and membership

This group is exclusively working on the drafting of the series of standards ISO 25239, parts -1 to -5. The series of standards was published in 2011.

The group is being re-activated to prepare the first revision of the series.
Please be informed that members of this group are appointed by National Delegates of C-III. If you want to join please contact your national delegate from [this list](#) or your member society. CEN and ISO experts are also welcomed via appointment by their national standardization body.

May you have any question or suggestion, please contact the group convener.
